BACKGROUND

I started my production career with 5 years combined experience working in-house at two highly respected TVC companies. These positions required exceptional time management and interpersonal skills and the ability to co-ordinate multiple jobs simultaneously. The facilitation of multiple EP's, Producers and Directors needs were paramount.

I regularly worked with our industries most respected Production Managers from whom I have learnt my productions skills. More recently I have worked on longform projects in the Locations Department which has deepened my film logistics skills and expanded my knowledge of other departments requirements and processes on any given project.

SKILLS

Callsheets and recce schedules. Crew, equipment, camera quotes and bookings. International and domestic travel (away job) requirements including flights and accommodation bookings and gear transport. Cast, extras and wardrobe check management. PPM prep and delivery. Remote and urban location applications & logistics. Budget management.
