profile I have been fortunate enough to work in the film industry on commercials from 1999 – 2017. During this time I have shot all over our beautiful country and the world. I am passionate about what I do and this shows in my dedication and commitment to the job. I am capable of managing small to large tvc shoots, adhering to budgets and negotiating locations. I also enjoy the fast pace of the industry and working to meet a deadline.

overview of experience

2019 – 2017 maternity leave from the film industry, during which time I ran a successful confectionary company **black pantry** (@blackpantry) running the day to day, managing the accounts, shipping, online store, small shop, staff, payroll etc.

I also helped (& continue to) help manage my husbands building company **ross building** managing \$500K + residential building jobs, budgets, payroll etc.

2017 – 2012 In between giving birth to three children I have worked on various TVC's with companies such as Goodoil, Scoundrel, YOUI, Rapid Films to name a few (see below)

2002 – 2017 I worked as a freelance production coordinator managed by top techs moving up to production management. See below a summary of jobs.

1999 – 2002 full time at Dragonslayer with Rona Lewis starting at reception and graduating to Production Coordinating before going freelance.
