JOSHBMILLER

Digital Imaging Technician (DIT)

I have been a Digital Imaging Technician (DIT) for over a decade in the US, EU and Australia.

As a DIT I have a complete technical understanding of onset color, data management, and post-production workflows for all digital formats including specialised filming technologies such as IMAX, VR, and Phantom high speed cameras.

With experiencing in cutting edge technologies such as 8K, HDR, ACES, and encryption standards for all major studios and streaming platforms I am equipped for any project.

I am a member of the International Cinematographers Guild: Local 600 as a DIT.

Equipment:

- Calibrated Sony, Flanders Scientific, Nebtek and SmallHD monitors ranging from 17-25"
- Waveform and vectorscope generators for accurate exposure and colour
- Teradek 4K Wireless Video Transmission systems
- Mac Pro with SSD RAID for lightning fast transcodes and editorial deliverables
- Flanders Scientific LUT boxes for live color grading on set
- Access to 250MB/s upload speed for cloud based post production workflows and dailies uploading
- VW Transporter Van

Video Split Operator (VTR)

I have been working as a Video Split Operator and DIT for over a decade in Australia, the US and Europe.

As a Video Split Operator I specialise in using QTAKE for multi-camera HD or 4K video assist, with the ability to edit on set, provide live compositing, chrome keying, visual effects and variable framerate playback.

My equipment is wireless and battery powered, built for both large stages and narrow entries into houses. I pride myself on being fast, professional, and highly technical to service the most demanding projects/agencies.

If your project requires remote streaming, I carry satellite internet, large antennas and boosters to ensure a solid connection to any watching clients or creatives.

Equipment:

- QTAKE HD Software and Hardware
- 17" SmallHD and 21" Flanders Scientific Director's monitors
- 32" and 55" Client and Agency monitors
- Portable video recording systems
- Wireless Video Transmission systems (Teradek)
- Satellite Internet
- Bonded cellular modem with external dual Yagi MIMO antennas to ensure a solid internet connection for QTAKE Stream for offsite clients
- iPads for remote viewing
- VW Transporter Van
