Hey Mark,

This is Justin (dialogue editor on Black Snow).

Firstly, I'd like to thank you and your team for doing an incredible job. It's all sounding great and we've actually been able to minimize the amount of ADR with alts/wilds etc. Great work!

Mark Cornish was the recordist on FRAYED and he has done a bang up job.

Dear Mark,

Thank you so much for coming onto **Holding The Man**.

I really appreciate all your wild tracks and additional sound, just like you did on Beneath Hill 60.

Warmest, and thank you so much for continuing to record some of the best sound I have ever worked with

Let's not leave it as long this time.

I hope very much to work with you again in the near future. Dany
