I have been a Video Assist operator for 15 years specialising in:  
-HD using Qtake video assist equipment.  
-Providing a professional service in sync with the director's needs.  
-Compositing, chroma keys, half mixes, variable frame playback and trial edits.

I have made my mark in the film industry for TVC video assist. With a reputation as the 'go to guy' for large US multicamera shoots, demanding director/agencies and highly technical post heavy scenarios. I am regarded as a fast, highly professional leader in the industry.

Demanded by directors the likes of Steve Rogers, Noam Murro, Rey Carlson & Jean-Pierre Jeunet, I bring professionalism to every aspect of my work.

With over 500 TVC's under my belt the usual suspects include:
